Specialist training resource observations
Sum of four worker processes per hand
Current process memory (GiB)
Elapsed run time (minutes)
Left RSS
Left PSS
Right RSS
Right PSS
Shared host memory; hand runs overlap
Available host memory (GiB)
Elapsed run time (minutes)
Host MemAvailable (one series)
Protection floor: 4 GiB
RSS includes shared pages; PSS apportions them. Native startup is included. Host availability is shared and must not be summed across runs.
